THE NEXT GENERATION?

Not Yet Prepared to Achieve Global Sustainability.

We're not nurturing enough young people able to lead sustainable practices. People are uncertain about their kids' futures. Ideology prevents youth from proactively contributing to sustainability. And, too many people lack awareness and tools for how to peacefully solve world problems.

[LET'S CHANGE THAT](#)

BUILDING NEW KINDS OF LEADERS

Why? To **build awareness** through the power of discussion and education. To **build personal and professional skills** to achieve practical sustainability. To **build a future world** that's more positive, safe & stable. And, to **build discerning leaders** who aren't misled or manipulated.

Help the next generation learn how to engage in sustainability conversations.

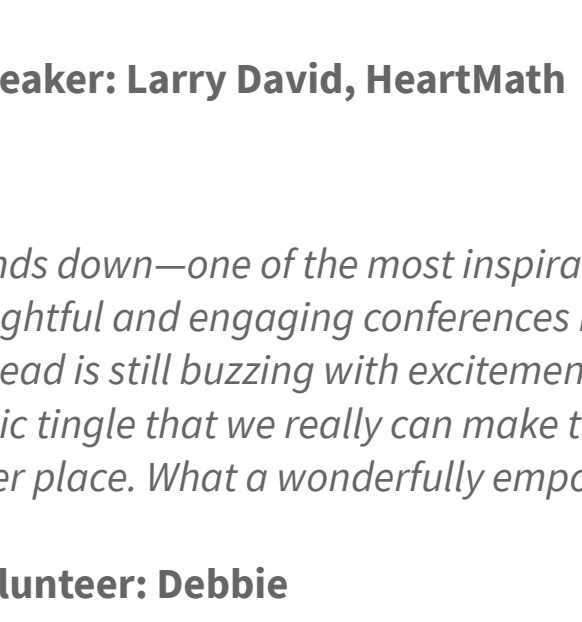

[GET INVOLVED](#)

INTENGINE – THE FOUNDATION

Developing young leaders to lead sustainability through government and business. Emotionally intelligent, and professionally prepared. Tomorrow's youth must **nurture cooperation** across ideologies, organizations and governments. New leaders will **reshape society and the marketplace** through uncensored, constructive conversation. For the informed and the seeking.

INTENGINE – THE BUSINESS

The world's most comprehensive online platform for sustainable purchasing. **Building trust** between customers and businesses. Helping businesses recognize the need to **improve social and environmental performance**. And, providing a marketing framework to **communicate clearly** about sustainability. Recognized in 2019 & 2020 as World's Best Eco-Business Platform.

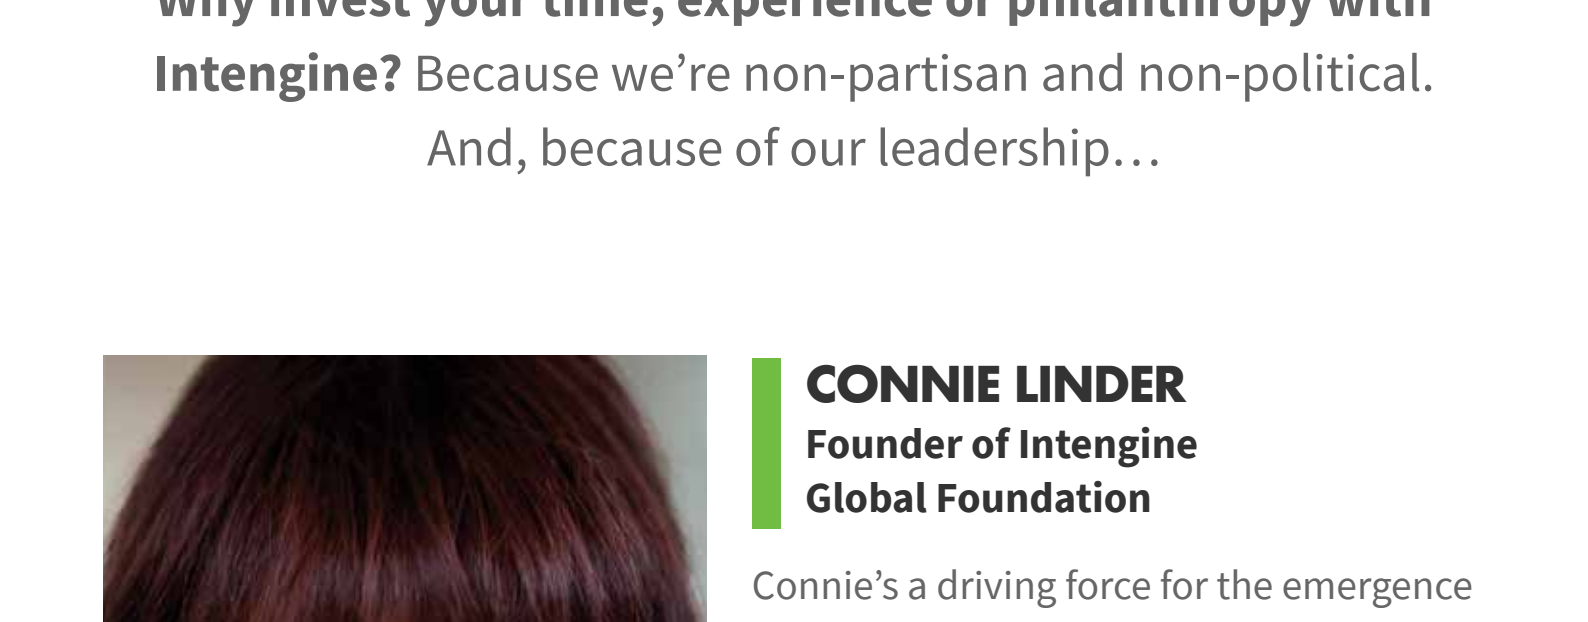

WHETHER BY FOUNDATION OR BY BUSINESS...

Helping commerce, industry and institutions have minimal long-term effects on the environment. And maximum positive effects on humanity.

[GET INVOLVED](#)

THE FOUNDATION'S PROGRAMS

Current leaders aren't making sustainable decisions based on balanced perspectives. Entrenched, polarized ideas & opinions stall achieving sustainability. **Let's prepare youth to lessen despair and cause repair... for more hope towards a positive future.**

STUDENT MEETUPS

Empower young minds with a grassroots approach. Help young people become effective, fair-minded & balanced advocates for a sustainable future.

TRUTH-SEEKER SERIES

Identify constructive goals for sustainable outcomes. Discuss contentious issues from varied, professional perspectives.

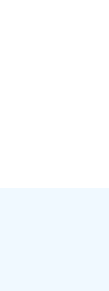

CONGRESS + GALA

Gather the brightest young minds. Combine them with industry and government leaders. Everyone inspired and learning together.

THE FOUNDATION'S INFLUENCE

People are *still* talking about last year's Congress & Gala

"The weekend resonated long after Sunday. The experience was powerful. Please count me in, in any way I can help. I believe in your vision; for we must do this work. It's not an option."

~ Speaker: **Larry David, HeartMath**

"Hands down—one of the most inspirational, thoughtful and engaging conferences I've attended. My head is still buzzing with excitement and that magic tingle that we really can make the world a better place. What a wonderfully empowering feeling."

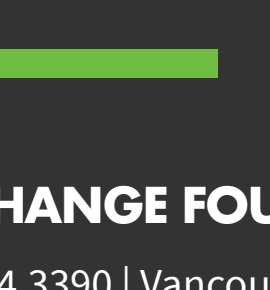

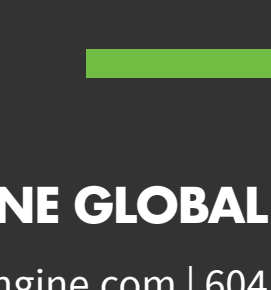

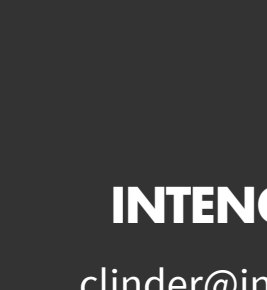

~ Volunteer: **Debbie**

"One of the most inspirational conferences I've attended in my life. It was amazing to engage with like-minded individuals and have my voice heard. I went to support my boss but came out of it supporting myself. This is a new beginning for my engagement with my community and government."

~ Attendee: **Frank**
